

## Important Warning

---

**Follow the instructions when connecting sensors and equipment to the Environmental Management System. See the diagram and table on pages 4–5 in the Installation and Quick-Start Manual included with the unit (990-1285).**

**Failure to connect the sensors and equipment to the correct Environmental Management System port (i.e., plugging the incorrect equipment into a port) will cause serious damage to the Environmental Management System and prevent the system from functioning properly.**
