Features Summary

- **Cinematic 16:9 format**

The solid 16:9 widescreen display unlocks new multitasking possibilities to maximize productivity and deliver better multimedia experiences.

- o Prevalence of 16:9 content and devices: HD digital content is now widely available on HD game consoles, Blu-ray Disc™ formats, digital broadcasting or online media.
- o As a 2nd display for 16:9 notebooks: With the increasing popularity of 16:9 notebooks, 16:9 widescreen monitors now ideally serve as large external displays to complement notebooks for more comfortable viewing and enhanced productivity without the need for resolution adjustments.

- **White LED technology**

Integrating white LED technology minimizes environmental impact. And up to **68 percent lower power consumption**, improved durability and mercury-free materials translate to big savings and preservation of nature's energy resources.

- **Easy viewing and sharp imaging**

Integrating excellent technical features of **8,000,000:1 contrast** enables users to view heavy data files or media applications with detailed precision and sharp defined lines.

- **Rapid 5 ms response time**

Acer X Series LCD monitors reduce deviations in transition time to deliver high-quality moving images.

- **Acer eColor Management —**

The acer Empowering Technology enables users to fine-tune and personalize the display settings by **redefining the color precision** according to the work mode whether data, media, cinema or images.

- **Acer eDisplay Management**

Acer eDisplay Management is a powerful display tool enabling advanced **color calibration** and display management for previewing and adjusting all settings enabling winning results!

- **High quality and long term viewing**
