HP Compaq 4000 Pro Small Form Factor PC

Value driven for business

An affordable, efficient and reliable business asset.

HP recommends Windows® 7.

Everyday business platform

The personal computer has become an absolute necessity in every business environment, big and small. Required to perform every day, the HP Compaq 4000 Pro includes proven PC modules and components designed to rigorus business PC standards.

Thinking long term

The HP Compaq 4000 Pro is capable of years of reliable service helping your business grow and prosper. Reduce your impact on the environment and help lower operating costs with ENERGY STAR® qualified models certified as EPEAT® Gold. Easily optimize the PC's power settings with HP exclusive Power Assistant [1] application. HP Power Assistant helps you manage your PCs power usage. You can set your PCs power settings with the easy-to-use user interface. Simply switch your PC to a low power energy saving state according to a preset schedule helping to maximize the energy conserving capabilities of your PC.

Stable, thoughtful design

The HP Small Form Factor (SFF) design is capable of being deployed in just about any office situation in either a desktop or tower configuration. Keeping the needs of businesses in mind,line in and line out ports and USB ports are up front for convenience. The HP Compaq 4000 Pro includes the option to connect two external monitors via VGA and DVI-D connectors to help you work more productively [2]. Upgrades and basic service are made easy with design principles learned over years of providing quality business PC designs. The HP Compaq 4000 Pro strikes the optimal balance of value and serviceability compared to more complex PC systems. You've demanded and HP has provided a business-class Standard Limited Warranty that provides onsite service.

Business-class PC

A cornerstone of HP business class PCs is a long product lifecycle. When your deployments are scheduled over a lengthy period of time it's good to know you'll be able to get the same chassis over multiple deployments. Plan for a minimum of 10 months availability for the HP Compaq 4000 Pro SFF. For more information about the HP Compaq 4000 Pro visit us at www.hp.com/go/desktop. HP recommends Windows® 7 Professional.

Everybody On

[1] HP Power Assistant may not be available in all regions. Use of this application is not required. Power calculations and cost calculations are estimates. Results will vary based on variables, which include information provided by the user, time PC is in different power states (on, standby, hibernate, off), time PC is on battery or AC, hardware configuration, variable electricity rates and utilities provider. HP advises customers to use information reported by HP Power Assistant for reference only and to validate impact in their environment. Environmental calculations were based on U.S. EPA eGrid 2007 data found at www.epa.gov/egrid/. Regional results will vary. Requires Microsoft Windows. [2] Models with Intel® quad-core processors do not include dual-monitor support.
