HP xw4X00/Z2X0/Z4X0 Depth Adjustable Fixed Rail Rack Kit	WH340AA
HP Z6X0/Z8X0 Depth Adjustable Sliding Rail Rack Kit	NN124AA
HP xw8200/xw9300 Sliding Rail Rack Kit	DY664A

## Introduction

The Rack Mount Solution for the HP xw4X00, HP Z2X0, and HP Z4X0 Workstations features a locking tray that secures to the workstation and adjustable fixed-rails that attach to the rack. This kit offers a low-profile design with minimal impact on space constraints, allowing for high density rack configurations. Highlighting flexibility and safety, the HP xw4X00/Z2X0/Z4X0 kit provides an affordable and simple rack mount solution for use with any of HP's current entry-level workstations.

The HP xw4X00/Z2X0/Z4X0 Depth Adjustable Fixed Rail Rack Kit (WH340AA) includes fixed-rails, a locking tray, and system adapter brackets. The fixed rails provide a stable platform for rack mounting and attach to the server rack using the provided hardware kit. The locking tray attaches to the workstation using captive screws and the system adapter bracket specific to your application. Simply slide the workstation into the rack so the fixed-rails are held captive by the tray and secure using the outer-most captive screws. The tray features two catches, located underneath the workstation, for added safety.

The HP xw4X00/Z2X0/Z4X0 Depth Adjustable Fixed Rail Rack Kit is suitable for the following racks:

- HP Series-E
- Compaq 10000 Series Rack
- May work on other third party racks

The HP Z6X0/Z8X0 Depth Adjustable Sliding Rail Rack Kit (NN124AA) features an enterprise-class three section ball-bearing extension slide. The slides are fully extendible, so the unit can slide completely out of the rack for servicing making it easy to add memory, hard disk drives, optical disk drives, option cards, etc. without removing the computer from the rack.

This kit comes with rails that snap into HP racks without using tools, making setup convenient and efficient. The inner slide and mounting flanges attach to the computer chassis using a set of screws for added strength and stability. The top mounting holes are concealed underneath the top plastic trim, which must be removed along with the rear handle to attach the inner slide and mounting flanges.

Parts for installing the sliding rack mount kit in HP legacy racks are sold separately in adapter kit part number WD587AA and are compatible with the following rack models: E3660B, E3661B, E3662B, E7590A, J1450B or J1487A/B.

The HP Z6X0/Z8X0 Depth Adjustable Sliding Rail Rack Kit is suitable for the following racks:

- HP Series-E
- Compaq 10000 Series Rack
- May work on other third party racks

The HP xw8200/xw9300 Sliding Rail Rack Kit (DY664A) attaches a workstation securely in a horizontal position with sliding rails. This kit includes a set of depth adjustable sliding rails that mount to racks having square holes, round holes, and some third party racks including some having pre-threaded holes in the vertical columns with rack depths from 24–30 inches, particularly broadcast racks. The kit also includes left and right mounting flanges that attach to the computer (after removing the plastic foot and top cover), and mounting hardware for several different racks (M5, M6, 10-32).

The HP xw8200/9300 Sliding Rail Rack Kit is suitable for the following racks:

### Overview

- HP Series-E
- Compaq 10000 Series Racks
- Some Rack enclosures with pre-threaded columns
- May work on other third party racks

The depth adjustable rails can be mounted at any height. The kit includes mounting hardware that will allow you to rack-mount your workstation in the rack types listed above. The kit includes left and right mounting flanges that are attached to the workstation after removing the plastic foot and top cover. The inner slide members also attach to the workstation, then it is inserted into the outer slide (which is attached to the rack), and secured with 4 screws (two for each flange).

---

### Compatibility

The HP xw4X00/Z2X0/Z4X0 Depth Adjustable Fixed Rail Rack Kit (WH340AA) is compatible with: HP xw4300, HP xw4400, HP xw4600, HP Z2X0, and HP Z4X0 workstations.

The HP Z6X0/Z8X0 Depth Adjustable Sliding Rail Rack Kit (NN124AA) is compatible with: HP Z6X0 and HP Z8X0 workstations.

The HP xw8200/9300 Sliding Rail Rack Kit (DY664A) is compatible with the HP xw8200, HP xw8400, HP xw8600, HP xw9300, and HP xw9400 workstations.
