

THE COMPUTER IS PERSONAL AGAIN.

Above and beyond

Whether you need an affordable display for general business or a high-performance solution for specialised work, there's an HP business flat panel monitor that meets your needs. With outstanding colour and clarity, thoughtful design and innovative features, the choice is clear: HP monitors are the right solutions to help your business improve productivity and provide a superior user experience.

See it all more clearly

The expanded family of HP high-resolution widescreen monitors provides more viewing area for large images and helps users spend less time scrolling or toggling between applications.

Expand your view

Multiple monitors help businesses improve productivity. Users can keep up with e-mail and day-to-day business on one screen while moving forward with strategic projects on another. Or they can tile multiple units together for a seamless panoramic display.

Make the most of your workspace

Sleek flat panel displays just take up less desk space than other models, and are easier to move between offices, too. Wall or swing-arm mounting is useful for space-constrained environments.

Protect your investment

With new theft-deterrent software features, support for Kensington locks and speakers integrated into some of our monitor designs, you can worry less about hardware disappearing.

Get comfortable

Different users need different monitor settings. Our adjustable monitors make it easy to find the right fit – so there's no need to lean back, hunch forward or turn your head to the side. Flicker-free screens and anti-glare coatings help reduce eyestrain.

Enjoy ease of use

HP Display Assistant lets you easily adjust panel brightness, contrast ratio, colour temperature and more. The theft deterrence feature of HP Display Assistant reinforces the security of your monitor by linking it up to your desktop, workstation or notebook with a PIN. Pivot Pro software provides support for 90-degree portrait and landscape views.*

Rely on our support

With HP Care Packs you can ensure your new monitor will always be covered in case of a problem.

* Provided on all Advantage and Performance products to support physical rotation of the panel.

Save energy and increase monitor life

HP helps you consume less energy and save more money, with innovative software like the HP Display LiteSaver. This utility allows you to schedule times for the monitor to go into low-power sleep mode. Plus, you have the comfort of knowing that HP monitors meet emissions, and environmental and ecological guidelines.

Energy-saving tip:

Set your TFT brightness to approximately 250 units for significant energy savings without compromising your visualisation experience!

A colour explosion

Imagine a colour, any colour. Guess what? If you can imagine it, the new **HP DreamColor LP2480zx** can reproduce it. Accurately. Over and over again.

Developed in close collaboration with DreamWorks Animation, the 61 cm (24") LP2480zx is the world's only LCD based on the HP DreamColor Engine. This innovative technology gives graphics-intensive users a billion colour possibilities, colour accuracy from vision to production and breakthrough colour control! As part of the HP Performance series of displays, the LP2480zx gives you the confidence to match the toughest colours – even when you're working with collaborators across the globe – with exact-colour certainty.

- Get accurate colour and tone response, reducing expensive and unnecessary time and money cycles.
- The 30-bit panel displays over 1 billion colours, enabling smoother colour transitions and virtually eliminating contouring artefacts.
- The LP2480zx display can synchronise to all the standard video frame rates, ensuring that the image on the screen is updated exactly in sync with the video source.

HP Care Pack:
HP 5-year Next Business Day Large Monitor HW Support (U7937E)

LE2201w

LA2405wg

LP3065

Essential series

43 cm (17"): **LE1711**, 45.7 cm (18"): **LE1851w**, 48.2 cm (19"): **LE1901w**, 50.8 cm (20"): **LE2001w**, 55.8 cm (22"): **LE2201w**

This slim, stylish line of HP monitors offers smart designs, great performance and world-class reliability, at an affordable price. Ideal for general office use in small and medium businesses, these displays offer crisp views, adjustable comfort settings and minimised power consumption.

- Get a great combination of features and performance at an affordable price.
- Wide viewing angles give you an excellent view of graphs, spreadsheets and other data.
- A range of sizes from 43 cm (17") to 55.8 cm (22") ensures you can find the right fit for your environment.
- VGA input for quick and easy connectivity.
- TCO05 and ENERGY STAR 5.0 certified.

For increased performance, more connectivity options and wider screens, choose the HP Advantage Series.

HP Care Pack:

LE1711, LE1851w, LE1901w: HP 5-year Next Business Day Medium Monitor HW Support (U7935E)

LE2001w, LE2201w: HP 5-year Next Business Day Large Monitor HW Support (U7937E)

Advantage series

48.2 cm (19"): **LA1951g, LA1905wg**, 55.8 cm (22"): **LA2205wg**, 61 cm (24"): **LA2405wg**

This advanced monitor series was designed for increased user comfort, and offers upgraded performance features for corporate and institutional environments. High contrast ratios, built-in USB hub and a full range of tilt-and-pivot settings offer users a variety of ways to view and interact with their work.

- Adjustable height, tilt, rotate and swivel options provide convenient positioning for improved comfort and productivity.
- Narrow bezels allow you to compactly configure multiple screens.
- Proven reliability means you can have confidence even in data-sensitive or mission-critical environments.
- Get future-proof connectivity with VGA, DVI-D and DisplayPort inputs.
- TCO05, ENERGY STAR 5.0 and EPEAT gold certified.

For the largest screens, most accurate colours and enhanced user experience for workstation environments, choose the HP Performance Series.

HP Care Pack:

LA1951g, LA1905wg: HP 5-year Next Business Day Medium Monitor HW Support (U7935E)

LA2205wg, LA2405wg: HP 5-year Next Business Day Large Monitor HW Support (U7937E)

Performance series

48.2 cm (19"): **LP1965**, 50.8 cm (20"): **LP2065**, 55.8 cm (22"): **LP2275w**, 61 cm (24"): **LP2475w**, 76.2 cm (30"): **LP3065**, 61 cm (24"): **LP2480zx**

HP performance monitors offer the ultimate in power, productivity and reliability. Professionals working in financial trading, graphic arts, digital content creation and computer-aided design will appreciate the ultra-wide viewing angles, crystal-clear resolution, stunning colour accuracy, enhanced ergonomics and presentation features.

- Ultra-large widescreens up to 76.2 cm (30") provide the ultimate view of complex imagery and graphics.
- High-contrast ratios enable even the most subtle colour details to be accurately displayed.
- Fast response times up to 8 ms ensure that the fastest moving graphics and animations will appear clearly.
- Protect your investment with multiple connectivity options including DisplayPort input.

For superior colour accuracy and tone control plus over a billion colour possibilities, choose the HP DreamColor LP 2480zx.

HP Care Pack:

LP1965: HP 5-year Next Business Day Medium Monitor HW Support (U7935E)

LP2065, LP2275w, LP2475w: HP 5-year Next Business Day Large Monitor HW Support (U7937E)

LP3065: HP 5-year Next Business Day Large Monitor HW Support (UE370E)

Maximise your viewing experience

HP Integrated Work Center (DL641AT/B)

Maximise space by mounting an HP flat panel monitor and your PC or thin client on a single stand.

HP Quick Release (EM870AT/AA)

Providing secure, easy mounting to any VESA stand, bracket or wall mount.

HP Flat Panel Speaker Bar (EE418AT/AA)

Enhanced multimedia experience. Seamlessly attaches to the monitor and provides speakers and an external headphone jack.

Expand your horizons

For extra-wide horizontal views or when displaying large amounts of data, an ideal and cost-effective method is to utilise multiple display configurations. Connect smaller monitors together and view additional windows, documents and applications simultaneously – ensuring easy navigation and optimal viewing of data.

Connect two 48.2 cm monitors

= cost-effectively increase the 48.2 cm viewable screen area x 2

55.8 cm x 76.2 cm monitor

= set the 55.8 cm vertically against the 76.2 cm for applications with large menu and toolbar options

Size matters

Improve efficiency and productivity when increasing monitor sizes. See more data and applications at the same time, reduce the amount of toggling, scrolling and clicking between applications and ensure everything is on-screen at the same time.

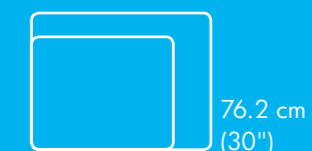

Upgrade from 43 cm to 48.2 cm monitor = see everything bigger with 30% more screen area

Upgrade from 48.2 cm to 55.8 cm monitor = see 33% more data without having to magnify the working area

Upgrade from 55.8 cm to 61 cm monitor = view 28% more data and improve efficiency through fewer clicks to access tools

Upgrade from 61 cm to 76.2 cm monitor = increase your viewing area by 53% and see 78% more data
