ThinkCentre A70z All-in-one PC

Sleek. Space-saving. Progressive.

ThinkCentre A Series All-in-one
Impressive innovation from the creators of ThinkPad®. It's time to rethink PCs for small business.

ThinkCentre A70z All-in-one PC

A70z all-in-one PCs. Sleek, serious business tools

Introducing our first commercial-grade, all-in-one desktop computer. Smart, secure and advanced PC technology disguised in an elegant, affordable, space-saving design. A70z is built to meet the challenges facing organizations today and tomorrow.

ThinkCentre® PCs include features & benefits only available from the creators of ThinkPad®:

- World-class, innovative technologies
- IT help and support from the PC experts
- Rock-solid, advanced security and data protection
- Business-grade PCs at mainstream prices
- IT management tools like ThinkVantage®
- Industry-leading quality assurance testing

Still not sure an all-in-one PC is the right fit for your business?

Lenovo opted to release its first all-in-one business PC only when confident these great-looking PCs met or exceeded the specific needs of small business.

Serious business PCs?	Cost-effective /affordable?	Style and performance?	Easy to repair/upgrade?
IT support from world-class PC experts.	All-in-ones consume less energy and cost less to operate.	Attractive and full-function PCs	One of the most easily-upgradeable AIO PCs out there.
High security, PC management tools solutions.	Space-saving and priced to fit any budget.	No-compromise security and style	Easy set-up requires minimal IT support.
From the creators of ThinkPad.	Easy upgrades mean extended PC use.	Flexible design to fit any office space, desk, table or wall.	Rigorous quality tests before they reach your desk

Energy-efficient design
A70z requires a third of the space as standard PCs, run quieter, cooler and consume less energy. They also require less packaging and reduce impact on the environment from manufacturing, to your desk and post-lifecycle.

ThinkVantage® Power Manager
Save energy and lower electricity costs. Monitor and control power consumption in a PC network. For greater savings and energy efficiency, program your PC to shut down on evenings or weekends.

Energy Star
Energy Star 5.0 compliant PCs consume less power, emit less heat and make less noise. The end result is a more cost-efficient PC and a cooler, quieter environment.
